

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP00-31-000]

Washington Gas Light Company and Shenandoah Gas Company; Notice of Application

November 29, 1999.

Take notice that on November 19, 1999, Washington Gas Light Company (Washington), 1100 H Street, NW, Washington, D.C. 20080, and Shenandoah Gas Company (Shenandoah), P.O. Box 2400 Winchester, Virginia, 22604, a wholly owned subsidiary of Washington, filed an application in Docket No. CP00-31-000, pursuant to Sections 7(b) and 7(c) of the Natural Gas Act (NGA), for an order (i) approving the abandonment by Shenandoah, and the acquisition by Washington, of Shenandoah's certificated facilities in Virginia, through the merger of Shenandoah with and into Washington, or alternatively, finding that such abandonment is not necessary because Shenandoah's NGA Section 7(c) certificates were effectively terminated and subsumed within Shenandoah's subsequent NGA Section 7(f) service area determination, (ii) amending Washington's service area determination under NGA Section 7(f) to include the territory served by Shenandoah in Virginia, and (iii) merging Shenandoah's blanket certificate issued under 18 CFR 284.224 with Washington's blanket certificate, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Any questions regarding the application should be directed to Donald R. Hayes, Specialist, Senior—Legal, Washington Gas Light Company, 1100 H Street, NW., Washington, DC 20080 or call (202) 624-6504.

Washington and Shenandoah state that Commission authorization of the transactions described in the application is in the public convenience and necessity because Washington will provide, through its Shenandoah Division, continued retail gas service to all of Shenandoah's former customers in Virginia and firm interstate transportation service on behalf of Mountaineer Gas Company and other customers in West Virginia at the same rates and under the same terms and conditions of service as currently provided by Shenandoah.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 20, 1999, file with the Federal Energy Regulatory Commission, Washington, DC, 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Shenandoah and/or Washington to appear or to be represented at the hearing.

David P. Boergers,*Secretary.*

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****Florida Gas Transmission Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Compressor Station 11A Expansion Project and Request for Comments on Environmental Issues**

[Docket No. CP00-4-000]

December 2, 1999.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an

environmental assessment (EA) that will discuss the environmental impacts of the Compressor Station 11A Expansion Project involving construction and operation of facilities by Florida Gas Transmission Company (FGT) in Mobile County, Alabama.¹ This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

Summary of the Proposed Project

FGT wants to expand the capacity of its facilities in Alabama to transport an additional 80,000 million British thermal units per day of natural gas to Alabama Electric Cooperative, Inc. (AEC) for use at a nonjurisdictional electric generating facility in Escambia County, Alabama. To provide this service FGT seeks authority to:

- Upgrade the two compressor turbines at Compressor Station 11A (CS-11A) from 12,600 horsepower (hp) Solar T-90s to 15,000 hp Solar T-100s for a new total station horsepower of 30,000 hp;
- Rewheel the centrifugal compressor of each unit to enable the compression of a larger volume of gas at a lower differential pressure;
- Install one new gas scrubber and a cooler; and
- Loop the existing 30-inch-diameter suction yard pipeline with approximately 1,000 feet of 36-inch-diameter pipeline.

All of the proposed facilities would be constructed in the station yard of CS-11A. The location of the project facilities is shown in appendix 2.²

Land Requirements for Construction

Construction activities would require approximately 6 acres of previously disturbed soil located entirely within the 27 acre, fenced compressor station property. The entire 6 acres would return to pre-construction conditions as no additional land would be needed to operate the new facilities.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental

¹ FGT's application was filed with the Commission under Section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.
